Fcode Labs Awards Night 2024:

A Night to Remember!

ANNUNAL AWARDS NIGHT-2025

A Night to Remember!

The much anticipated an annual awards night was held on December 11th, 2024, at the beautiful Waters Edge, Battaramulla, where laughter, joy, and pride filled the air.

A huge congratulations to all the award winners! Your hard work and dedication have set a shining example for all of us. We also extend our heartfelt appreciation to the entire Fcode team for their incredible contributions, which truly embody the spirit of excellence we celebrated that night.

The event was a showcase of not just individual achievements but also the collective brilliance of our team. The evening featured delightful performances by our own talented colleagues, **Lochana, Ameera** and **members of the business analyst team** and was hosted with charm and energy by **Dishali Gurusinghe** and **Udara Sembukuttiarachchi**. The night was made even more special with a hilarious stand-up performance by the talented Siril Aiya, who had everyone laughing out loud.

A special thanks to the organizing team, led by **Avantha Dissanayake**, whose meticulous planning and efforts brought this unforgettable night to life. Here's to the unstoppable spirit of Fcode.

This is just the beginning of many more years of achievement to come!

VALUE-BASED AWARDS WINNERS

- *The Champion - Innovation at the forefront:* ***Prabhanu Gunaweera***
- *The Champion - Transparent actions, accountable interactions -* ***Thusara Wanigathunga***
- *The Champion - Setting the bar high -* ***Madushanka Kulasinghe***
- *The Champion- Embrace diverse voices, celebrate different perspectives -* ***Pansuja Senevirathne***
- *The Champion - Every little thing matters -* ***Buddhi Vikasitha***
- *The Champion - Today's best is tomorrow's norm -* ***Muqshid Mohamed***
- *The Champion - Enjoy the journey, cherish the relationships -* ***Yasith Abeykoon***

AWARDS WINNERS FOR FUNCTIONAL ACHIEVEMENTS

- *Engineering Excellence - The Wingman -* ***Tharindu Wickramasinghe***
- *Engineering Excellence - The Navigator-* ***Rashmi Liyanage***
- *Engineering Excellence - The Pilot-* ***Oshan Jayawardana and Dushan Pramod***
- *Engineering Excellence - The Strategist -* ***Evindu Rajapaksha***
- *Engineering Excellence - The Captain-* ***Ruzan Hizar and Hasitha Indika***
- *QA Excellence Honors -* ***Sandani Wimalasiri and Munsira Mansoor***
- *Analytical Excellence Honors -* ***Ovini Medagedara***
- *Enterprise Excellence Honors-* ***Nimantha Galhenage***

HALF DECADE LEGACY AWARD- ***Dulaj Ariyaratne and Kavindu Dhanjaya***

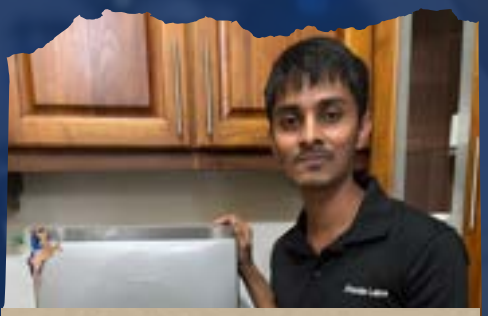

Unforgettable Moments at the Awards Night!

It's Christmas Time

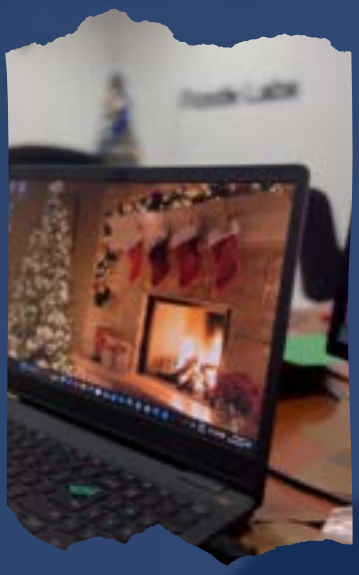

THE MAGIC OF THE SEASON AT FCODE LABS

Our team didn't stop at the workplaces — they even gave the **fridge and coffee machine** a festive makeover!

The Christmas vibes kicked off with decorating the office! Everyone gathered, and we had a fun team competition where each group showed off their final decorations. The team with the most votes for their setup won!

Our Winning Team putting in some serious effort to claim the 1st place!

Gift-Giving Mystery: Solved

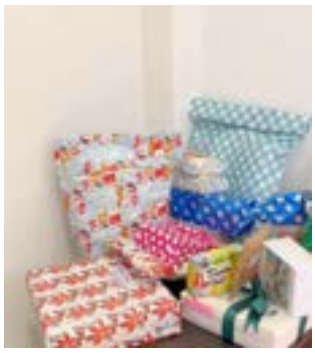

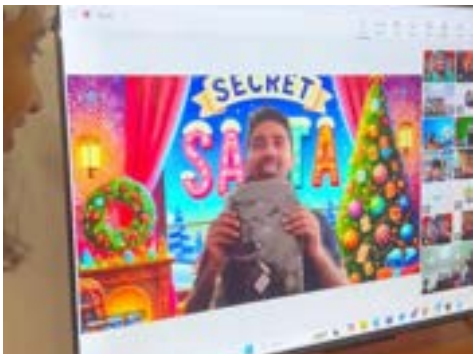

The Secret Santa gift exchange, was organized for all our members by spliting into three teams according to their convenience . The event was all about bringing everyone together, whether in the office or working remotely. Our members took part by exchanging thoughtful gifts, spreading cheer, and making great memories. With the option to join virtually or in-person, it was an inclusive, joyful celebration and a great chance to connect, spread goodwill, and bring everyone closer, no matter the distance, giving the true meaning of Christmas.

We're Excited to Introduce Our New Leadership Team!

Buddhi Vikasitha
Development

Dulaj Ariyaratne
Development

Ruzan Hizar
Development

Muqshid Mohamed
Quality Engineering

Pansuja Senevirathne
Business Analyst

Madushanka Kulasinghe
Infrastructure

Our leadership team will be the driving force leading operations of Fcode Labs. Their vision, resilience, and dedication are setting the course for success. They don't just lead; they pave the way for others to grow and thrive.

But we're still looking for some exceptional individuals to be part of it. If you have the passion to innovate, the drive to make a difference, and the willingness to grow, you could find your place in this team. To make your way in, focus on taking initiative, building expertise in your field, and demonstrating a strong commitment to driving results. Embrace challenges as opportunities to grow, collaborate effectively, and continuously strive for excellence in everything you do by refining your skills and staying adaptable to change.

Leadership isn't a destination it's a journey. And the path forward is yours to take.

Pamaljith Harshapriya
Head of Operations

Here are Some Exceptional Client Feedback to Our Team.....

"Throughout the project we have encountered multiple technical challenges, one of the biggest ones was when Tharindu had to integrate a blockchain smart contract into the web application. This was a complex task that he had never done before and he was able to complete it to a high standard, learning quickly and adapting to the new technology"

Tharindu Wickramasinghe

- Tirso -

"He went into the complex area of tagging topics as being seen or not. Within a short time he found the problem in the front end and could point to where the backend also needed update/review."

Yasith Abeykoon

- Uqualio -

" We were thinking about implementing image edit functionality to AI PC but due to its complexity, we didn't start working on it. When we asked him to implement it, he did the research properly, and nicely implemented it by collaborating with team members."

"He learned our Interplay framework within a short time which is incredible. This allowed him to migrate our solutions from AI PC to Enterprise and collaborate with the team for further enhancement."

Pasan Wickramarathna

- Iterate AI -

"We faced a significant compatibility issue with the current framework, he quickly researched alternative approaches. He leveraged his technical network to resolve the issue and meet our expectations. This not only saved the project time but also improved its long-term maintainability."

Prabhanu Gunaweera

- Iterate AI -

Straight from the source. Clients feedback, shared in their own words!

At Fcode Labs, we move forward as one team, and we truly appreciate the commitment of our entire team who delivers the best.

WORK-LIFE BALANCE

Simple Tips for a Happier You

Prioritize Tasks
Focus on the most important tasks first and avoid overloading yourself. Break big projects into smaller steps to make them more manageable.

Take Breaks
Don't forget to take regular breaks. A quick walk or some time away from your desk can refresh your mind and boost productivity.

Make Time for Yourself
Whether it's reading, exercising, or just relaxing, make sure to spend time doing what makes you happy and helps you recharge.

Delegate When Possible
Don't try to do everything yourself. If you can, delegate tasks at work or at home to lighten your load.

Stay Organized
Use a calendar or to-do list to stay on top of things. It helps reduce stress and keeps you focused.

Work Flexibly
If possible, take advantage of flexible work hours or remote options. It can make managing responsibilities easier

Connect with Loved Ones
Spend time with friends and family. Socializing and connecting with loved ones is a great way to recharge.

Focus on Quality, Not Quantity
It's not about how much time you spend working or relaxing, but how meaningful that time is. Make every moment count.

Learn to Say No
It's okay to turn down extra tasks when your plate is already full. Be selective about what you take on.

MEET OUR NEWLY JOINED INTERNS

Say hello to our amazing new interns! They're full of energy, ideas, and ready to roll up their sleeves and get to work. We're excited to have them on board and can't wait to see what they bring to the team. Let's give them a warm welcome!

I'm Prabodha Jayasinghe!
I love reading, watching animated movies, and exploring new recipes (even if they don't always turn out right!). I'm into classical Sinhala music, and in my free time, I love playing badminton or chess.

I'm Tharindu Dakshina !
I'm from Galle. I don't like working in the same place all the time. In my free time, I enjoy walking with friends and playing cricket or badminton.

I'm Vidhara Ranujee!
I've had the chance to work as a dubbing artist, which was such a fun experience! I also enjoy taking the stage as a moderator or announcer. Dancing and drama are totally my thing, but singing? Yeah, I'll leave that to the pros.

I'm Isini Anuththara!
I'm all about keeping things fun and creative. Outside of work, I love getting lost in a good book, doodling random ideas, dancing like no one's watching, and experimenting with new recipes in the kitchen. It's my kind of therapy and the perfect way to relax and recharge .

I'm Tharusha Dinujaya!
I love playing card games with friends whenever we have some free time. Our games are filled with fun chats – from thoughtful discussions about education to humorous takes on the simple joys of farming life. It's a great way to unwind and bond with others!

I'm Nimasha Sathsarani!
My name is Nimasha, but most of my friends call me Masha. I love to create artworks like drawings and paintings in my free time. I'm also passionate about traveling and exploring places.

I'am Saumya Sewwandi !
I love snack food but everyone says I'm too skinny and don't look like that. Also, I'm a huge Friends fan.

Hi, I'm Avinda Shamal!
In my free time, I enjoy watching and playing cricket, along with catching up on some much-needed sleep to recharge. I'm excited to learn and grow in a practical environment!

I am Sandali Gunwardena !
I guess my specialty would be being dexterous. I'm good at cooking, DIY crafts, sewing, designing and drawing stuff. -For a fun fact, I'm obsessed with 16-18th centuries times, all over Europe and Asia. I love the culture, clothes, music of those times

MEET OUR NEWLY JOINED INTERNS

Say hello to our amazing new interns! They're full of energy, ideas, and ready to roll up their sleeves and get to work. We're excited to have them on board and can't wait to see what they bring to the team. Let's give them a warm welcome!

I'm Visitha Wickramasinghe.
I've been a diehard wrestling fan since childhood, with heroes like John Cena, Rey Mysterio, Randy Orton, and The Undertaker. As a kid, I used to wrestle with pillows, imagining they were my opponents! I'm also passionate about cricket, having watched matches for as long as I can remember, though I've never seen one live in a stadium. A big fan of Sherlock Holmes, I'd say his books are the only ones I've ever truly read. Lastly, I have a fascination with ghosts and would love to experience paranormal activity someday.

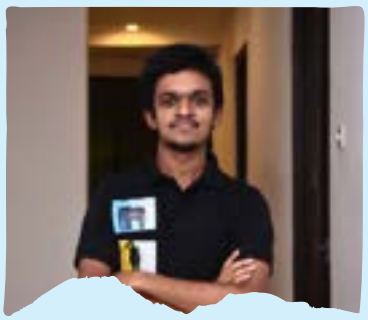

Hi, I'm Sithika Guruge!
I'm a very social person and love starting conversations on almost any topic, whether I've known someone for years or just met them. I'm passionate about volunteering and community work, and I'm actively involved with IEEE and the LEO Club at the University of Moratuwa as these activities help me make new friends and help to relieve academic stress. I'm a huge movie enthusiast, especially when it comes to films that tug at the heartstrings. However, the funny part is, I can rarely remember the movie's name afterward, no matter how impactful it was!

Hi I'am Ravindu Hasanka.
I'm passionate about hackathons, including development challenges, ideathons, competitive programming, and UI/UX design. Currently, I serve as the President of the UCSC Pahasara Media Club and the Treasurer of the ACM Student Branch. Right now, I'm preparing for my final year research project, which focuses on developing a customizable CNN platform. Fun fact: I'm a huge cricket fan! While I love watching the matches, playing cricket isn't exactly my strong suit.

I'm Pinsarie Sigera!
I have a unique love for eating instant noodles uncooked – that's the only way I think they should be eaten.
I talk a lot, so if we chat, be prepared for random details about me. In my free time, I'm all about watching sitcoms – Friends, Brooklyn Nine-Nine, and How I Met Your Mother are my favorites. My spirit animal is a mix of Monica and Barney.

I'am Chathura De Silva
Outside of work, I'm all about nature—birding, photography, and conservation. I love exploring nature, seeking out over ecosystems, and chasing that perfect shot of rare species. It's my way of connecting with the wild and doing my part to protect it.

I'am Savini Rathnayake
When I'm not coding, you'll find me on the hockey field, either defending the goal or gossiping with my team mates. I used to have a massive baby fever, thought it'd be super sweet to pamper babies all day. Then my sister left me with her baby for just one day, and now I don't think I'll ever get that baby fever again!

Celebrating Our Recent Graduates

Cheers to New Milestones!

At **Fcode Labs**, we absolutely love seeing our team members grow, both personally and professionally. So when four of our amazing colleagues recently completed their academic journeys, we couldn't be more excited to celebrate their incredible achievements!

- **Pamaljith Harshapriya** – MBA in Information Technology
- **Dumindu Bandara** – BSc. Eng. in Electronic and Telecommunication Engineering
- **Gevindu Sumanasekara** – BSc. Eng. in Electronic and Telecommunication Engineering
- **Shaluka Pathirana** – BSc (Hons) in Textile & Apparel Engineering

Some of our team members joined in the celebrations, making it a day full of pride and joy.

Creative Corner!

Next month, we're excited to introduce a brand new section in our magazine dedicated to showcasing the incredible creativity of our team members.

Whether it's a technical article, a creative piece (artwork, photography, writing), or any other type of contribution.

We want to highlight the diverse talents of our amazing team
